

Welcome to the Texas Board of Professional Engineers' (TBPE) Quarterly Board e-Newsletter!

As part of our ongoing efforts to improve communication between the Board and license holders, an email notice will be sent out after each Quarterly Board Meeting with news, highlights, and updates on Board activities. This e-Newsletter is in addition to the yearly paper newsletter.

Highlights:

- The Board held its May 2010 meeting at the Board office in Austin, TX. To view the meeting agenda and to listen to recordings of the meeting, [click here](#). Note that you can earn PDH as self-study for watching Board meetings.
- At the Board Meeting, the Board appointed Lance Kinney, P.E., as the new Executive Director. [Click here](#) for the press release.
- Also, several enforcement actions were taken against individuals and engineering firms. For more information about these cases, [click here](#).
- The Board adopted several rules that will add flexibility to exam and reference statement format, clarify the international temporary licensing process, and create a process for firms to voluntarily surrender their registration. The rules are effective June 13, 2010, and have been posted on the [TBPE website](#).
- During FY 2009, the Board set record outreach numbers. So far in FY 2010 we have shattered that record, giving 147 presentations to over 8,200 people. If you are interested in having a representative from the Board visit with your organization, company, or university to make presentations on ethics, licensure, enforcement, or any other issue relating to professional engineering in Texas, please contact our outreach coordinator Dorothy Gonzales at dorothy.gonzales@tbpe.state.tx.us.
- In keeping with our efforts to modernize and increase communication with our licensees and the public, TBPE has added new options to keep you up-to-date with the Board. You can now follow us on [Facebook](#), [Twitter](#), and via an [RSS feed](#). Join today!

You received this message because you are a Texas licensed professional engineer and have indicated that you wish to receive electronic correspondence from the Board. If you wish to discontinue receipt of this e-Newsletter and other messages from the Board, you can change your preferences online using the ECHO system: <https://www.tbpe.state.tx.us/echo>
